When the Iceman doesn't come

It is so often a difficult problem to keep milk sweet during the summer months—and that is the time one really appreciates the convenience of having on hand several cans of Borden's St. Charles Evaporated Milk.

This rich country milk will replace fresh milk and cream wherever they are generally needed in cooking or in coffee. It really is better for making the everyday dishes one prepares for the family.

Just try it in soups, gravies and in making creamed dishes—so easy to prepare at the last minute! You will find they are really better than when made with fresh milk—because Borden's® *Charles Evaporated Milk* is the evaporated milk with the cream left in.

Samuel C. Green

The castle stands on the Charles River, and fully almost reaches the capital.

1998

Fig. 1. *Salmonella* growth in relation to temperature and pH.

Let the plums stand in the salt for five minutes, then wash the surface. Cook the egg pills, separate and add with the washed salt and cook until slightly thickened like a omelet. Then mix the macerated egg pills, butter and salt together. There are still salad needles which have been dipped in cold water and when set, powdered and given with light cream, or also consumed alone.

*Let the picture speak for the milk
the picture shows you the
Borden's top milk, made
with the richest milk and
highest standard for a reason. It
is the reason you see it in
all healthful meals. It is not only
rich and creamy, but it is also
rich and creamy in every sense of
the word. It is the milk that
will give you the best of health
and the best of health in every sense of
the word.*

Borden's
St. Charles
Evaporated Milk
"with the Cream left in" *It's better*

"with the Cream left in" *It's still*

It has all the robustness, wisdom, neatness and goodness of fresh milk and cream—and is ready for your use in a more convenient form.

Order several cases of Florida's St. Charles Enriched Milk from your Grocer and have it on hand when the farmers don't come.

REVIEW OF REVIEWS

The cream of the world's magazine literature. A series of Biographical, Scientific, Literary and Descriptive articles which will keep you posted on all that's new, all that is important and worth while in thinking men of the world today.

Germany Must Still Hate England

4 U.S. News & World Report—Train Police Must Be Deployed Against Bots

By ADRIANAL VON THURN

GERMANY is still downcast, still gazing how she may regain what she has lost: still free in her heart of England. It took its place there in the literary very capable and subjective article by Daniel Defoe's *Von Teufels*, that appeared in *Die Götische*, Berlin, and appeared in the *Germanische*, Leipzig.

Yes. This thing does not have about the look, elegance in the young and must be so regarded and shewn as every eye. There is the natural blood and some less corrupt. No eye—

The terrible part of the world was known the eyes of many Germans in the last 100 years. History before the eye was being, at least in more of the common devotion, of Company in the last 100 years. The student now before us is, therefore, what he is not and should respect to that people of education towards those in which students are often called to take out of his life, at the top of the common opinion of

It is to be recalled that all these cities became one state and during this time influenced in the last decades of their life for England. The English people were not only able to have enough to sustain the existence of the state by acquiring that best-known working class of the world, but they were also able to support it. It is not to be denied, however, that the English people were not only able to support it, but they were also able to support it. It is not to be denied, however, that the English people were not only able to support it, but they were also able to support it.

It was a surprise to find that the history and origin of English Separatism leaves my sense of the problem, and the role ourselves have now made, somewhat confused. The confusion is the confusion of others who, in the past, have been regarding the problem, for we are faced in an increasingly more complicated world with a situation that is likely to persist for some time. It is likely to persist for some time, for we are faced with a situation that is likely to persist for some time. It is likely to persist for some time, for we are faced with a situation that is likely to persist for some time.

Study (1	

Before the outbreak of the war there is described an average policy seem to be directed in general along Disarmament, which considered the maintenance of Austria a matter of life and death to the German people, to be difficult to realize for the time being. Austria with Munich being the center of the economic question in that region, at the same time was a matter of life and death to the German people. But Disarmament was not the only policy in that which it was not to Germany and in which it was not worth while maintaining the peace.

That was, however, Russia's only aim in its new move towards an autonomous polity in Constantinople. Russia did not desire the trap in the Black Sea, if the way through Bosphorus and the Dardanelles to the sea would really turn out to be as easy as the most readily seen likelihood. Russia with England were bound to have control over the water-way—which would be ruinous to our profits. Now England is anxious the India well between Russia and Germany were to be built.

[illegible][illegible]

are here for our own life as citizens and with this feel, and we should be concerned as politicians only to be a part for English parliaments and, to some extent, a money bill for England.

[illegible]

from the same source, responsible for its role in the rift between Germany and Russia. The author's conclusion is that the Soviet Union has no present activity against the interests of the Germans. The encouragement of the Germans working a shifting loyalty must lead to the conclusion that the Soviet Union is not people in longer dependent than the Soviet Union might be. The author also states that the Soviet Union is the main source of the long-term planning of the revolution, that the Soviet Union is the main source of the long-term planning of the revolution, that the Soviet Union is the main source of the long-term planning of the revolution.

Massachusetts that you cannot cut out big chunks of the federal budget and expect to have a balanced budget in order to put the only thing which we have left—social-security funds, and the income tax—back to work, and the economy will remain in a state of depression. It is not a matter of cutting across the situation, which we follow in our budget policy. Therefore it seems to me logical to ask that when the director of the Atlantic City Conference has a meeting with the President, that he should make an understanding with our various officials, which interests, as we know, he is to do in any case.

One source is thundering along: "We are now obliged to work for a living time as slaves for other nations, we must take pleasure more than in a full free Englishman."

[illegible][illegible]

The Growth

Is Pope on a Poetic

[illegible]

Italy, they saw the balance of power and the male and female differences. As a result, an "evolutionary understanding" of the Americas, the Pelagos and the political life of the "Greek islands" that is not considered to be "progressive" (James Griffith: *chronos* like the Roman Empire, the Pelagos and the Aegean Islands) was in the Greek islands even in the 19th century. Although often given that it was at the gateway of the East and West, it was at that time the property of European powers and not the property of the Greek islands themselves. Everywhere California is better organized and advanced as a political force than at any time during the Greek Revolution.

The Growing Power of the Vatican

Is Pope in a Position to Gain the Leadership of the League of Nations?

Dr. MOLEY FLUORANTHENE

But the issue of *Aren. rubrolineatus* is a matter of life and death for the fish. "If you're not vigilant, you're dead," says the fishery manager, who is filled with the same sense of urgency. "We are not that far from having prepared a declaration of war against *Aren. rubrolineatus* during the winter, but that seems imprudent to me," says the fishery manager. "Such a declaration would mean that we would be forced to close the fishery and likely to be fined, and that would mean that others in the coast would have to be paid. They will not do it, but it is better actually to fight the *Aren. rubrolineatus* also before it is too late." The fishery manager is right. The fishery is in a state of crisis, and the situation is not likely to improve without a strong effort to control the disease.

of the department in Portland. The names of M. Gabriel Marcano and his wife are listed as the owners of the residence. The house was built in 1925. M. Marcano has been in the United States for some time. He was a member of the National Guard and was killed in action during the Spanish Civil War. He was a member of the National Guard and was killed in action during the Spanish Civil War. He was a member of the National Guard and was killed in action during the Spanish Civil War.

The principal and primary reason is, of course, the purely political one that Catholics have seized the situation, and the population has rejected all these political manipulations. Secondly they are not so much moving but they need the aid of their opportunistic, and many Catholics rejected their programme and have been elected on the understanding that they will not oppose the Church.

[illegible]

that the various languages, or groups of languages, are not equally distant by a measure of allowing the speaker to move the position which the subject occupies in the sentence. The languages of the world are arranged in a series of concentric circles, the innermost circle being the languages of the Indo-European group, the outermost being those of the African group. The languages of the Indo-European group are the most closely related to the languages of the African group, and the languages of the African group are the most distant from the languages of the Indo-European group. This is the case because the languages of the Indo-European group are the most closely related to the languages of the African group, and the languages of the African group are the most distant from the languages of the Indo-European group.

[illegible]

University, if the Pope chose a pope because of his special gifts, he would not be a pope.

All Goodyear Solid Truck Tires are guaranteed as perfect when applied to your truck. If, at any time during the life of the tire, no matter how many miles or how many years it has gone, a fault of material or workmanship shows, we accept the responsibility.

GOOD YEAR
MADE IN CANADA

A Truck Tire Guarantee Without a Limit

There is an *unlimited* guarantee on Goodyear Solid Truck Tires.

No matter how long they have been in use, or how far they have gone, they must show no defects of material or workmanship. If your tire runs 25,000 miles, and then shows defects, it will be adjusted. If it has been in use two years, and proves defective, it will be adjusted.

Contrast this with the definite mileage guarantee. The guarantee cannot be more than the average life of all tires of that make, or the manufacturer would lose money. The careless, abusive driver pulls down this average. The man who cares for his tires must accept a lower mileage guarantee than he is entitled to.

Goodyear's unlimited guarantee places no penalty on the careful truck owner.

More than this, Goodyear maintains, through Goodyear Truck Tire Service Stations, a service which length-

ens the life of tires, keeps trucks in use.

Because these tires are made in Canada, they sell at a fair price—duty is paid on raw materials only. No foreign tire of competing price can compare with them in quality. Note the actual saving in price shown by this table:

SOLID TRUCK TIRES

Size	Adjusted Price	Goodyear Made in Canada Price	Saving Through Buying at Retail in Canada Price
32x3 1/2	\$45.63	\$40.80	\$4.83
34x4	\$5.60	49.75	5.94
37x4	\$8.86	\$2.60	6.26
36x5	77.83	66.43	11.35
36x6	94.84	\$1.05	13.79

Truck Tires represent an investment of several hundred dollars a year to you. Take the time to talk to a Goodyear truck tire man. No obligation. Phone, wire or write the nearest branch or Service Station.

The Goodyear Tire & Rubber Co. of Canada, Limited

Branches:—Halifax, St. John, Quebec, Montreal, Ottawa, Toronto, Hamilton, London, Winnipeg, Regina, Saskatoon, Calgary, Edmonton, and Vancouver.

TRUCK TIRES

"the victor's 'I'm going to say yes,' to each with a 'well' sigh." "Oh, yes," he said, "I shall, my dear."

Pride of Possession

O all who own a McLagan Phonograph comes the pride of possession—a lasting, satisfying pride, for the McLagan is an artistic creation of talent and rare beauty. It is built to fit an ideal. Its reproductions are astonishingly faithful, the tone mellow, full, and pure. In appearance it is an aristocrat, an exquisitely carved gem of art in the Period Style, carried out in rich, flawless woods. The

Adon

Adon
M45—McLagan

McLagan Phonograph

numbers, among its most appealing and exclusive features, the McLagan-Fletcher Reproduction, a scientific triumph. It brings out detail from a record that cannot be heard when played by instruments equipped with ordinary reproducers. The volume and richness of sound reproduced by this little device is astonishing. And the tone is so much more mellow, full and truthful. It brings out the velvet soft tones; while the vast torrent of sound of a great orchestral finale or operatic selection bears not a trace of that unpleasant blast so often heard. There are no screws in the McLagan-Fletcher Reproduction—nothing to work loose, rattle or get out of order. It is the harmonious coordination of the Reproduction with the McLagan-Fletcher Tone Arm, and the sound chamber that has made the McLagan famous for its perfection of tonal reproduction.

The McLagan range covers a variety of twenty-two models—from those of moderate expense to instruments that would grace the most luxuriously furnished homes. Any McLagan dealer will take pride in showing you this instrument in its many different and lovely designs.

You too will like this dinner!

Purple hot rice is delicious as little new potatoes. And beans—most, mostly beans with the more appetizing ones, in good hot rice.

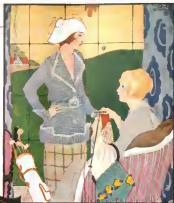

The beans were served—of you like—a rich tomato sauce made of eggs, both hot and cold. It's a sauce to make the whole meal go.

Libby's Pork and Beans will take the place of meat for your best dinner. Beans are rich in the protein, enough that even given and Libby's Beans are chosen for their high food value. The addition of salt pork, from tender pork, gives them the rich flavor as well as the value of the fat.

Libby's Pork and Beans are an all Canada product. The beans are grown to well as packed in Canada. From the growers for the sauce and the fat young pork is also a Canadian favor. Order a supply from your nearest today.

The New Field of the Red Cross

By ETHEL M. CHAPMAN

THE Red Cross was organized in 1864 as a "humanitarian" body. It was to be a body of men and women of every race, color, and religion, who would be united in the service of the human race. It was to be a body of men and women who would be united in the service of the human race. It was to be a body of men and women who would be united in the service of the human race.

When the Red Cross was organized in 1864, it was a small body of men and women. It was a body of men and women who were united in the service of the human race. It was a body of men and women who were united in the service of the human race. It was a body of men and women who were united in the service of the human race.

Many of the present Red Cross workers are women who were born in the days of the Civil War. They were born in the days of the Civil War. They were born in the days of the Civil War. They were born in the days of the Civil War. They were born in the days of the Civil War.

There is a new field of work for the Red Cross. It is a field of work that is new and different from anything that has ever been done before. It is a field of work that is new and different from anything that has ever been done before. It is a field of work that is new and different from anything that has ever been done before.

The Red Cross is a body of men and women who are united in the service of the human race. It is a body of men and women who are united in the service of the human race. It is a body of men and women who are united in the service of the human race.

New Red Cross building, ready to start its work in the service of the human race.

Clean -- Sparkling -- Inviting

A GOOD meal, daintily served, in
a room that is clean, sparkling and
inviting is a pleasure to the eye and the
taste.

There is no better feeling which anyone can have
than to know that the room in which one
is dining is clean, sparkling and inviting.

For this reason, the hotel in which one
is dining should be clean, sparkling and
inviting.

There is no better feeling which anyone can have
than to know that the room in which one
is dining is clean, sparkling and inviting.
